Morning Lance,

Attached is the form that would be used for transferring funds to the CEC in support of EPA's effort for the upcoming Council meeting in OK. We've taken a first crack on the language in MOD though feel free to modify; form appears to be editable. Once AO provides their fiscal coding, finalizes, and secures signatures over there, pls return in a .pdf form along with a copy of the REQL form. Thanks in advance and if you have any questions, pls holler. Regards,
